Special class at Beppu Nishi Junior High School (collaborative class between the "Regional Color/My Color" Study Group and Beppu Nishi Junior High School)

A special lesson using previous teaching materials and the newly created learning material, "The Sea and Sky of Our Hometown," was held in the science classroom on December 15, 2025, from 1:10 PM. Thirty-four students from Class 2-2 took the class.

The instructor was representative Ryoji Teruyama, assisted by Takako Shiotsuki from the secretariat.

The lesson was supervised by teacher Otomo.

The lesson content included:

① "Hell Dyeing" using mud from the Blood Pond Jigoku (Hell of Blood Pond).

② Before learning about the learning material, "The Sea and Sky of Our Hometown," an overview of the introductory material, "Treasures of Our Hometown," the research material, "Mysteries of Our Hometown," and the community collaboration material, "The Land of Our Hometown," as well as the flow of research activities, were explained. During this time, students analyzed the properties of hot spring water using purple cabbage, and learned about Beppu stone, Beppu clay, and soil.

③ Learning about the learning material, "The Sea and Sky of Our Hometown (Community Disaster Prevention)."

④ Using "color" as a starting point, the lesson focused on the local nature (natural environment), history (disaster history), and culture (disaster lore), and disaster prevention education was based on this.

⑤ This was followed by a question and answer session.
